Willie and Mike, the large black horses driven to Mr. Murphy's dray, are aged respectively 19 and 18 years, and have probably done more hard work during the 13 years they have been in his service than any two horses in the State. The Charleston failed to reach this place several days late, and to the annoyance of our citizens generally. There is something wrong somewhere with the mail service here, and the Charleston section, and we hope efforts will be made by the proper authorities to ascertain with whom the fault lies. It is a little singular that passengers and express matter can come through without delay while the mails cannot.

A New Cotton Factory for Anderson County.

"J. G. C.", a correspondent of the Greenville Daily News, writing from Williamston, S. C., says:

"Our citizens are delighted to learn that the gentlemen who organized the Wilson Mill Shoals from Major G. W. Anderson last spring will take possession the first of two hundred tenements, which they have like business. It is well known, of course, that the company bought the shoals for the purpose of erecting a factory, such a one as is at Piedmont.

Williamston expects to be much improved when this much talked of factory is completed. It is said that the company will run a railroad from the factory to Prince's crossing, and establish a depot there. Of course, the citizens of Williamston prefer the depot to be here, and the road to run from this place, a distance of perhaps three-quarters of a mile further than from the factory to Prince's. We have yet to learn how that will be, and what will be the effect on business here in either event.

"This section of Anderson County is in a better condition financially than it has been for many years. Many of our good honest farmers who have retired from the business are paying their debts and getting even with the world."

A War Incident.

EDITOR INTELLIGENCE: Recently I wrote to the postmaster at Spartan, Illinois, inquiring for a gentleman of that city whom I met there in 1864.

The postmaster, whose name is Andrew Wilson, gave the desired information, and added: "Now it is my time to make an inquiry. If you know one John R. Cochran, of Anderson C. H., please let me know. I was there in 1864."

In my reply I asked him to state the circumstances of his being at Anderson at that time when the war was in progress; and he responded as follows: "In May, 1863, I was captured by the Confederate troops near Rome, Georgia, and remained a prisoner of war until the 1st day of March, 1865. I was held at different points in the South, and finally confined at Columbia, S. C., I escaped and traveled a northwesterly direction, but finally recaptured at a farm house about 17 miles north of Anderson C. H. by the man who lived there—Maj. McCann, they called him—and a number of boys and old men, were taken back to Anderson and imprisoned in the county jail two days and nights. While we were confined there John R. Cochran called on us and manifested such kindness to myself and others that I wanted to hear whether he was still living."

I am sure the persons alluded to, as well as others, will recall the incident, and will not doubt read this recollection of it with some interest; hence I ask you to publish it.
